

COVID-19 PCR TESTING

Available at Suretox Laboratory

Services are available to all tri-state Employers, Schools, Daycares, Nursing homes . Call or Email us for immediate response.

Suretox Laboratory implements **RT-PCR clinical** methods to accurately detect and identify viral RNA with increased sensitivity and specificity

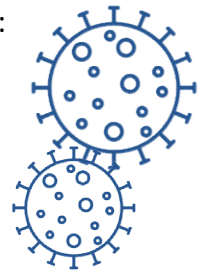

The RT-PCR test for COVID-19 is a molecular technique which identifies the RNA of SARS-CoV-2, the virus which causes COVID-19

Why should I get tested?

- ✓ Help stop the spread of COVID-19
- ✓ Know when to self-quarantine
- ✓ Contribute data to the medical community

RT-PCR COVID-19 Test is:

- ✓ FDA approved
- ✓ EUA approved

Who should get tested?

- ✓ Individuals experiencing lower respiratory symptoms such as: cough or shortness of breath
- ✓ Individuals who have been in contact with someone who tested positive for COVID-19
- ✓ Individuals preparing for surgery
- ✓ Medical staff/personnel
- ✓ Employees as required by state
- ✓ Individuals who suspect they may have contracted COVID-19

Specimen collection and results:

- ✓ A nasopharyngeal swab is used to collect a test sample
- ✓ Facilities ordering 10 or more COVID-19 tests daily: a healthcare professional would be present on site for specimen collection and transport of specimens to the laboratory
- ✓ A simple order form and consent form must be completed for each test performed
- ✓ Test results will be completed **within 24 hours of specimen** arrival at the laboratory
- ✓ Official test reports are delivered to patients via email or text message, as requested
